

A program focused on helping you improve your health

Introducing digital diabetes prevention coaching

Roughly 88 million Americans are living with prediabetes but 84% aren't even aware they have it.¹ Prediabetes often doesn't cause symptoms, but it does increase the risk of developing type 2 diabetes, heart disease, and stroke. That's why Anthem has partnered with Lark to offer a diabetes prevention program that can help you determine if you're at risk for prediabetes and if needed, take steps to address it.

This program can help you:

Lose
weight

Eat
healthier

Increase
activity

Sleep
better

Manage
stress

Better health is within your reach

You can participate in this program at no extra cost as part of your health plan. Track your progress, check in with your coach, and learn more about prediabetes right in Lark's free mobile app. This program is flexible, convenient, and follows guidelines from the Centers for Disease Control and Prevention (CDC) to help you make small changes that can improve your health and decrease your risk over time.

Weight loss with Lark

Losing weight can make a big difference in lowering your risk for type 2 diabetes. Lark members lose an average of 4.2% of their body weight in 12 months on the diabetes prevention program.² As part of the program, you receive a wireless scale at no extra cost to help you track your weight loss progress. Your scale also syncs with the Lark app so you can share updates with your coach.

24/7 coaching support

Losing weight and making lifestyle changes can feel intimidating even if you know it can lead to better health. Your coach can help you stay motivated. Send your coach a message anytime from anywhere and receive an immediate response and extra support when you need it most. During the course of the program, your coach will:

- Be available 24/7 through the Lark mobile app to provide personalized coaching.
- Customize your program based on your food preferences and lifestyle.
- Provide educational information on prediabetes and preventing type 2 diabetes.
- Help you learn about how stress affects your health and how to cope with it.

You are in control of your health. Prevent diabetes and start improving your overall health and well-being today.

Learn if you are at risk for prediabetes

Go to lark.com/anthemBC and take a quick one-minute survey to see if you could benefit from Lark's diabetes prevention program.
